Dr Robert Goldman

SPECIALIST SURGEON

B.Sc (hons), MB,ChB, F.R.A.C.S

Dr Robert Goldman received his Bachelor of Medicine and Bachelor of Surgery in 1982 and his Fellowship of the Royal Australasian College of Surgeons in 1997. He performs regular Cosmetic operating lists at:

- St John of God Mt Lawley Hospital.
 - Cairns Private Hospital.
 - Cairns Central Day Hospital.
- Bondi Junction Private Hospital.

Dr Goldman also specialises in:

- **Vaser Liposculpture and Hi-Definition Liposculpture**

The Vaser Liposculpture system is the next generation in advanced body contouring.

- **Labiaplasty.**

As a highly skilled, experienced Specialist Surgeon, Dr Goldman specialises in Labiaplasty, ensuring that patients receive the highest level of professional service and care.

- **Post Weight Loss Body Lifts.**

Demand for these operations is increasing.

- **Facial Rejuvenation and Laser**

We use the latest in Facial Rejuvenation Injectables to achieve a younger, vibrant look. Often combined with one form of Laser or another.

- **Laser Tattoo Removal.**

Dr Goldman uses the Alma Laser Harmony XL platform.

**Suite 4 level 2, St John of God Mt Lawley Medical Centre
2 Ellesmere Rd, Mt Lawley WA 6050**

COSMETIC BREAST ENHANCEMENT

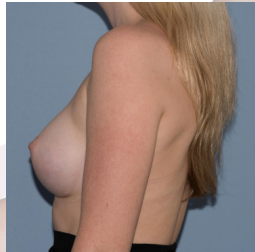

A Personal Choice

A woman's breasts have always been a symbol of femininity and an intrinsic aspect of a woman's beauty. Whether it be through the aging process or simply from your own personal beauty aspirations, sometimes a woman's breasts are not the size and/or shape that you would wish them to be. Breast Augmentation can help you reach the confidence and beauty that you aspire to. Using the latest gel medical technology, today's breast implants feel more natural than ever before and allow you to choose the size and shape of the breasts you desire. So if you are considering Cosmetic Breast Enhancement, we understand the importance of your decision and the importance of choosing the right Surgeon. Dr Goldman's Cosmetic Practice focuses primarily on Breast Enhancement, making him an expert in this field.

Breast Augmentation has never been more successful when it comes to patient satisfaction

Previous submuscular implants - left.
Note the very high upper breast pole

After correction, implants now subglandular - converted from under to over the pectoral muscles

COSMETIC BREAST ENHANCEMENT

An Overview

Breast implants have been used in Breast Augmentation now for over 40 years. With regular technological advances in both breast implant technology and surgical techniques, Breast Augmentation has never been more successful when it comes to patient satisfaction. Today, Breast Augmentation surgery is now a mainstream procedure. Dr Goldman performs all Cosmetic Breast Enhancement surgery at an accredited hospital facility using general anaesthesia. The procedure itself takes between one and two hours and patients generally return home either the same day as the procedure or the very next day. When it comes to breast implant technology, Dr Goldman only uses the highest quality implants. For the most natural look and feel, Dr Goldman prefers to use Cohesive Silicone Gel Implants which have been designed to increase cleavage and overall breast fullness.

As well as specializing in Cosmetic Breast Enhancement, Dr Goldman continues to specialize as a surgeon in women's breast health - ensuring you receive the professionalism and experience you deserve.

At a consultation with Dr Goldman, all of your questions and aspirations can be discussed and answered. Dr Goldman will take you through a simple step by step process to identify the exact size and shape you are looking for.
